AS/30/3(3)

RULES FOR FELLING IN PRIVATE FORESTS.

1. All mature, dead and dying trees shall be removed irrespective of species and girth (Dying tree means the tree of which half the crown is dead).

2. At least 20 timber trees of the following important species between 18″ and 36″ in girth at breast height shall be reserved per acre well distributed in the area of exploitation.

Teak, Sissum, Karimuttal, Nandi, Honni, Heddi, Kindal, etc.

The trees to be reserved under this rule shall be sound ones. In case the trees of the species mentioned above of the minimum prescribed girth are not available equal number of trees of the maximum available girth shall be retained well distributed in the area of exploitation.

3. Soft wood species, *viz.*, Sawar, Ambada, etc., below 36″ girth at breast height shall be retained.

4. Fruit trees and trees yielding important economic forest products such as Ambad (Mango), Phanas (Jack), Kaju, Amla, Karanj, etc., shall not be cut. Over mature trees of the species may be felled after they are certified by the Range Forest Officer.

5. All sandalwood trees below 12″ girth at breast height (except dead and dying trees) shall be retained.

6. No trees of any species below and up to 12″ girth at breast height shall be allowed to be cut except those mentioned in rule 1 above. Trees of the species other than those mentioned in rule Nos. 2, 3, 4 and 5 below 12″ girth at breast height should be felled only if they are interfering with trees of the abovementioned timber and other species or likely to interfere with future coppice shoots of the timber species to be felled. Under no circumstances should large gaps be created in the canopy.

7. No area should be clearfelled on the tops of steep hills where heavy erosion is feared. Such area shall be delineated by giving tar bands at breast height to the boundary trees which shall be approved by the Range Forest Officer.

8. Trees to be reserved under rules 2, 3 and 4 should be marked with tar bands.

9. All live and sound trees to be felled shall be cut flush with the ground and the stools should be cut within 3″ of the ground level.

10. Reserved trees when infested with climbers shall be freed.

11. All dragging paths shall be refilled.

12. Before felling is started the area shall be inspected by the Range Forest Officer. He will also inspect the area after the felling is completed and furnish a certificate of the satisfactory completion of the work to the Divisional Forest Officer, ...

13. Thinning and cleaning in coppice growth shall be carried out as under:—

If the number of stems (or shoots) is more than 3 in case of stools of and over 24″ in girth at ground level, and more than 2 in the case of stools below 24″ girth at ground level, the number of stems in excess of the above number shall be cut back. The most promising stems shall be retained and bad ones shall be removed.

14. The periodicity of felling will be limited to 20 years cycle and hence the area once worked will not be allowed to go worked till 20 years have elapsed from the year of previous working.

NOTIFICATION.

23 AUG 1961

Whereas a notice has been issued under sub-section (3) of Section 35 of the Indian Forest Act, 1927, to Shri. G. R. Deshpande of Dyanapur (1) the owner of the Forest specified in the schedule hereto annexed, to show cause why a notification under sub-section (1) of Section 35 of the said Act, should not be made prohibiting or regulating the acts specified in the draft notification attached to the said notice;

~~And whereas the objections raised by the said owner to the issue of a notification and evidence produced by him have been heard and considered by Government~~;

And whereas no objections have been taken by the said owner to the issue of a notification;

And whereas it appears to the Government of Mysore that it is necessary:—

(a) For the conservation of trees and forests;

(b) For the preservation and improvement of soil; ~~or the protection of land against erosion or the deposit thereon of sand, stones or gravel~~;

(c) For the improvement of grazing;

(d) For the maintenance of water supply in springs, rivers and tanks;

(e) For the maintenance, increase and distribution of the supply of fodder, leaf manure, timber and fuel;

(f) For the preservation of public health;

(A) To prohibit in the Forests specified in the Schedule appended here to the following acts:—

(a) Breaking up or clearing of the land for cultivation;

(b) Setting of fire to the area for the purpose of clearing the ground for Shikar or for promoting better growth of grass. If any fire occurs by accident all possible measures to extinguish it shall be taken by the owner promptly.

(c) Burning of any tree in the land even if it is dead for the purpose of hunting or collection of honey;

(d) Lopping of trees of the following species for the purpose of tahal:—

Teak, Mango, Sissum, Moha, Hirda, Khair, Bibbla *i.e.*, Honni, Shivan, Chandan, Apta and Temburni.

Issued
23 AUG 1961

(B) To regulate in the forests specified in the Schedule appended hereto the following acts:—

(a) Marking of trees in flat areas and moderate slopes shall be done on sylvicultural principles approved by the Divisional Forest Officer, Dharwar and in the steep and precipitous slopes on the principles of protection where only dead trees may be removed.

(b) Pasturing of cattle:—

(i) Not more than 2 heads of horned cattle per acre shall be allowed to be grazed in the area.

(ii) Sheep shall be allowed to graze in specified area approved by the Divisional Forest Officer, Dharwar but limited to the carrying capacity and goats at the rate of not more than 2 per hundred sheep as prescribed in Article 122 (v) of the Bombay Forest Manual, Vol. III.

(c) Girdling of trees shall not be permitted unless the removal of tree is sylviculturally desirable.

(d) Tapping of trees shall be allowed in the manner and during the period as may be prescribed for different species by the Divisional Forest Officer, Dharwar

(e) Stripping off bark of trees shall not be allowed unless otherwise specifically permitted by the Divisional Forest Officer, Dharwar

(2) Shri. K. B. Joshi (Guardian of Minor Owner Shri. R. V. Deshpande)

(3) Shri. S. G. Deshpande.

(4) Shri. K. G. Deshpande.

(f) Stripping of leaves of fodder tree shall be permitted by rotation and in the manner prescribed by the Divisional Forest Officer, Dharwar

(g) Lopping of trees of the species other than those mentioned under A (d) shall be permitted in the manner prescribed by the Divisional Forest Officer, Dharwar

(h) Clearing of under growth shall not be allowed except under the privileges sanctioned by Government for the neighbouring Government Forests.

(i) Pollarding of economic species such as Apta, Temburni and other species useful as lac hosts shall be allowed by rotation during the period and in the manner prescribed by the Divisional Forest Officer, Dharwar

(j) Cutting of trees shall be regulated according to girth limits prescribed by the Divisional Forest Officer, Dharwar with due consideration to sylvicultural requirements of the crop. Rules in this connection are enclosed herewith. Trees to be felled or retained, whichever are less in number shall be marked according to the prescriptions laid down by the Divisional Forest Officer, Dharwar

(k) Quarrying shall be done only in the places approved by the Divisional Forest Officer, Dharwar Quarrying shall not be permitted if sacrifice of good tree growth is involved.

(l) Burning of lime and charcoal shall be done preferably on flat areas taking care to see that the fire does not spread and destroy the vegetation.

Now, therefore, in exercise of the powers conferred by sub-section (1) of Section 35 of the Indian Forest Act, 1927 (XVI of 1927), as in force in the Bombay Area, the Government of Mysore hereby:

(A) Prohibits. (A) *above* (*) Here in specifically the acts which are prohibited.

(B) Regulate. (B) *above* (*) Here in specify all the acts regulated

Belgaum, 14 February 1961.

To

The Chief Conservator of Forests
in Mysore, Bangalore.

Sir,

Subject:-Control over private Forest
S.Nos.26, 27 and 28 of
Bujruk-Narayanpur village,
Taluka Shiggaon, Dist.Dharwar.

In submitting herewith the Divisional Forest Officer, Dharwar's No.FOP/FST/II-74/60-61 dated 19-1-1961, and draft notifications (in duplicate) under Section 35(1) of the Indian Forest Act 1927 in regard to the "Control over the private forest survey Nos.26, 27 and 28 of Bujruk-Narayanpur", I have to request you to kindly move Government to publish the notification in the Mysore Gazette and to supply 20 copies thereof to the Divisional Forest Officer, Dharwar for necessary further action.

2. Notices under Section 35(3) were issued and served on the owners of the S.Nos. and no objections were received by the Divisional Forest Officer from any of the owners, within 2 months time given.

3. The S.Nos. are surrounded by Government Forest on all sides and they are full of young growth coming up in place of the trees already felled. These S.Nos. also form a block having 10 acres and are in the midst of Reserved Forests and as such they are fit to be notified under Section 35(1) of the Indian Forest Act.

4. The Divisional Office case (pages 1 to 98) is submitted herewith for reference and return.

Yours faithfully,

D. Nanjundappa
(D.Nanjundappa)
Conservator of Forests,
Belgaum Circle.

LETTER.

To

The Conservator of Forests,
Belgaum Circle, Belgaum.

No.FOP/FST/II-74/60-61. Dharwar, 19th January, 1961.

Subject: Control over private Forest Sy.Nos. 26,27 and 28 of Bujruk-Narayanpur village, Taluka Shiggaon.

Reference: Your No.24/16/5968 dated 3-8-1959.

The notices issued under Section 35(3) of the Indian Forest Act, 1927 in respect of Sy.Nos.26,27 and 28 of Bujruk-Narayanpur village, Taluka Shiggaon received under your No. quoted above, have been served on the concerned owners as shown below :-

Sl. No.	Name of the owner.	Sy.No. and Village.	Date of service of the notice.	Remarks.
1	2	3	4	6
1.	Shri.G.R.Deshpande of Dyamapur.	26,27 and 28 of Bujruk-Narayanpur Village.	2- 1-1960	
2.	" K.B.Joshi(Guardian of Minor owner Shri. R.V.Deshpande).	-do-	22-10-1960	
3.	" S.G.Deshpande	-do-	21- 4-60	
4.	" K.G.Deshpande of Dyamapur.	-do-	1- 3-60	

One copy of the notice meant for Shri.K.B.Joshi(Guardian of Minor owner Shri.R.V.Deshpande) was served on Shri.R.V.Deshpande instead of serving the same on Shri.K.B.Jishi by the Range Forest Officer, Hangal through oversight. When this mistake was noticed by this office the Range Forest Officer, Hangal was instructed to get back the copy of the notice from Shri. R.V.Deshpande and serve the same on Shri.K.B.Joshi(Guardian of Minor owner Shri.R.V.Deshpande). Kindly vide page No.71. Accordingly the Range Forest Officer, Hangal has obtain the copy of the notice from Shri.R.V.Deshpande and served the same on the proper owner Shri.K.B.Joshi (Guardian of Minor owner Shri.R.V.Deshpande) on 22-10-1960 Kindly vide page No.94. For the acknowledgement of the owners for having received a copy of the notice kindly vide page No.74.

2. The last date of serving the notice on one of the owners is 22-10-1960 i.e. the notice served on Shri.K.B.Joshi (Guardian of Minor owner Shri.R.V.Deshpande). Hence the two months' time given to the owners for putting forth their objections if any has expired on 22-12-1960. The owners have neither raised any objections, in person nor sent any objection statements to this office or to the Range Forest Officer, Hangal. Hence it is clear that the owners have no objection to notify the Sy.Nos.26,27 and 28 of Bujruk-Narayanpur village, Taluka Shiggaon under Section 35(1) of the Indian Forest Act, 1927.

Kindly vide R.F.O.Hangal's No.1300 of 29-12-60 at page No.98/

(.....2

3. The notice issued under your No. quoted above under Section 35(3) of the Indian Forest Act, 1927 in respect of Sy. Nos.26,27 and 28 of Bujruk-Narayanpur village, Taluka Shiggaon appears at page No.2183, Part III of the Mysore Government Gazette dated 3-9-1959 (Kindly vide page No.61 of the case).

4. In the circumstances reported above, I am submitting herewith the draft notification, in quadruplicate, under Section 35(1) of the Indian Forest Act, 1927 in respect of Sy.Nos.26,27 and 28 of Bujruk-Narayanpur village, Taluka Shiggaon for favour of taking necessary further action in the matter. The Compiler, Mysore Government Gazette may kindly be requested to supply 20 copies of the notification to this office after publishing the same in the Mysore Government Gazette at an early date.

5. This office case (pages 1 to 98) is submitted herewith for favour of perusal and return.

(K.M.SUBBAYYA)
Divisional Forest Officer,
Dharwar.

GOVERNMENT OF MYSORE.

No.AFD 70 FAF 61.

Mysore Government Secretariat,
Vidhana Soudha,
Bangalore, Dated, 23 AUG 1961

NOTIFICATION.

Whereas a notice has been issued under sub-section (3) of Section 35 of the Indian Forest Act, 1927, to (1) Shri G.R. Deshpande of Dyamapur, (2) Shri K.B. Joshi (Guardina of Minor owner Shri R.V. Deshpande), (3) Shri S.G. Deshpand, (4) Shri K.G. Deshpande, the owner of the forest specified in the schedule hereto annexed, to show cause why a notification under sub-section (1) of section 35 of the said Act, should not be made prohibiting or regulating the acts specified in the draft notification attached to the said notice;

And whereas no objections have been taken by the said owner to the issue of a notification;

And whereas it appears to the Government of Mysore that it is necessary:-

(a) For the conservation of trees and forests;
(b) For the preservation and improvement of soil;
(c) Fore the improvement of grazing;
(d) For the maintenance of water supply in prings, rivers and tanks;
(e) For the maintenance, increase and distribution of the supply of fodder, leaf manure, timber and fuel;
(f) For the preservation of public health;

(A) To prohibit in the Forests specified in the Schedule appended here to the following acts:-

(a) Breaking up or clearing of the land for cultivation;
(b) Setting of fire to the area for the purpose of clearing the ground for Shikar or for promoting better growth of grass. If any fire occurs by accident all possible measures to extinguish it shall be taken by the owner promptly.
(c) Burning of any tree in the land even if it is dead for the purpose of hunting or collection of honey;
(d) Lopping of trees of the following species for the purpose of tahal:-
Teak, Mango, Sissum, Moha, Hirda, Khair, Bibbla i.e., Honni, Shivan Chandan, Apta and Temburni.

(B) To regulate in the forests specified in the Schedule appended hereto the following acts:-

(a) Marking of trees in flat areas and moderate slopes shall be done on sylvicultural principles approved by the Divisional Forest Officer, Dharwar and in the steep and precipitous slopes on the principles of protection where only dead trees may be removed.
(b) Pasturing of cattle:-
(i) Not more than 2 heads of horned cattle per acre shall be allowed to be grazed in the area.
(ii) Sheep shall be allowed to graze in specified area approved by the Divisional Forest Officer, Dharwar, but limited to the carrying capacity and goats at the rate of not more than 2 per hundred sheep as prescribed in Article 122 (v) of the Bombay Forest Manual, Vol.III.

15

(c) Girdling of trees shall not be permitted unless the removal of tree is silviculturally desirable.

(d) Tappoing of trees shall be allowed in the manner and during the period as may be prescribed for different species by the Divisional Forest Officer, Dharwar.

(e) Stripping off bark of trees shall not be allowed unless otherwise specifically permitted by the Divisional Forest Officer, Dharwar.

(f) Stripping of leaves of fodder tree shall be permitted and in the manner prescribed by the Divisional Forest Officer, Dharwar.

(g) Lopping of trees of the species other than those mentioned under A (d) shall be permitted in the manner prescribed by the Divisional Forest Officer, Dharwar.

(h) Clearing of under growth shall not be allowed except under the privileges sanctioned by Government for the neighbouring Government Forests.

(i) Pollarding of economic species such as Apta, Temburni and other species useful as lac hosts shall be allowed by rotation during the period and in the manner prescribed by the Divisional Forest Officer, Dharwar.

(j) Cutting of trees shall be regulated according to girth limits prescribed by the Divisional Forest Officer, Dharwar, with the consideration to silvicultural requirements of the crop. Rules in this connection are enclosed herewith. Trees to be felled or retained whichever are less in number shall be marked according to the prescriptions laid down by the Divisional Forest Officer, Dharwar.

(k) Quarrying shall be done only in the places approved by the Divisional Forest Officer, Dharwar. Quarrying shall not be permitted if sacrifice of good tree growth is involved.

(l) Burning of lime and charcoal shall be done preferably on plat areas taking care to see that the fire does not spread and destroy the vegetation.

Now, therefore, in exercise of the powers conferred by sub-section (1) of section 35 of the Indian Forest Act, 1927 (XVI of 1927), as in force in the Bombay Area, the Government of Mysore hereby:

(A) PROHIBITS

(a) Breaking up or clearing of the land for cultivation;

(b) Setting of fire to the area for the purpose of clearing the ground for Shikar or for promoting better growth of grass. If any fire occurs by accident all possible measure to extinguish it shall be taken by the owner promptly.

(c) Buring of any tree in the land even if it is dead for the purpose of hunting or collection of honey.

(d) Lopping of trees of the following species for the purpose of tahal:
Teak, Mango, Sissum, Moha, Hirda, Khair, Bibbla i.e. Honni, Shivan Chandan, Apta and Temburni.

16

~~The~~ (B) REGULATE

MGS/MS.100 copies.

RULES FOR FELLING IN PRIVATE FORESTS.

1. All mature, dead and dying trees shall be removed irrespective of species and girth (Dying tree means the tree of which half the crown is dead).

2. At least 20 timber trees of the following important species between 18" and 36" inches in girth at breast height shall be reserved per acre well distributed in the area of exploitation.

   Teak, Sissum, Karimuttal, Nandi, Honni, Heddi, Kindal etc.,

   The trees to be reserved under this rule shall be sound ones. In case the trees of the species mentioned above of the minimum prescribed girth are not available, equal number of trees of the maximum available girth shall be retained well distributed in the area of exploitation.

3. Soft wood species Viz., Sawar, Ambada etc. below 36" girth at breast height shall be retained.

4. Fruit trees and trees yielding important economic forest products such as Ambad (Mango), Phanas (Jack), Kaju, Amla, Karanj, etc. shall not be cut. Over mature trees of these species may be felled after they are certified by the Range Forest Officer.

5. All sandalwood trees below 12" girth at breast height (except dead and dying trees) shall be retained.

6. No trees of any species below and upto 12" girth at breast height shall be allowed to be cut except those mentioned in rule 1 above. Trees of the species other than those mentioned in rule Nos.2,3,4 and 5 below 12" girth at breast height should be felled only if they are interfering with trees of the above mentioned timber and other species or likely to interfere with future coppice shoots of the timber species to be felled. Under no circumstances should large gaps be created in the canopy.

7. No area should be clearfelled on the tops of steep hills where heavy erosion is feared. Such area shall be delineated by giving tar bands at breast height to the boundary trees which shall be approved by the Range Forest Officer.

8. Trees to be reserved under rule 2,3 and 4 should be marked with tar bands.

9. All live and sound trees to be felled shall be cut flush with the ground and the stools should be cut within 3" of ground level.

10. Reserved trees when infested with climbers shall be freed.

11. All dragging paths shall be refilled.

12. Before felling is started the area shall be inspected by the Range Forest Officer. He will also inspect the area after the felling is completed and furnish a certificate of the satisfactory completion of the work to the Divisional Forest Officer, Dharwar.

13. Thinning and cleaning in coppice growth shall be carried out as under:-

    If the number of stem (or shoots) is more than 3 in case of stools of and over 24" in girth at ground level, and more than 2 in case of stools below 24" girth at ground level, the number of stems in excess of the above number shall be cut back. The most promising stems shall be retained and bad once shall be removed.

14. The periodicity of felling will be limitted to 20 years cycle and hence the area once worked will not be allowed to be worked till 20 years have elapsed from the year of previous working.

GOVERNMENT OF MYSORE.

No.AFD 70 FAF 61.

Mysore Government Secretariat,
Vidhana Soudha,
Bangalore, Dated, 23 AUG 1961

NOTIFICATION.

Whereas a notice has been issued under sub-section (3) of Section 35 of the Indian Forest Act, 1927, to (1) Shri G.R. Deshpande of Dyamapur, (2) Shri K.N. Joshi (Guardian of Minor owner Shri R.V. Deshpande), (3) Shri S.G. Deshpand, (4) Shri K.G. Deshpande, the owner of the forest specified in the schedule hereto annexed, to show cause why a notification under sub-section (1) of section 35 of the said Act, should not be made prohibiting or regulating the acts specified in the draft notification attached to the said notice;

And whereas no objections have been taken by the said owner to the issue of a notification;

And whereas it appears to xx the Government of Mysore that it is necessary:-

(a) For the conservation of trees and forests;
(b) For the preservation and improvement of soil;
(c) Form the improvement of grazing;
xxx xxxx

20

(e) Girdling of trees shall not be permitted unless the removal of tree is silviculturally desirable.

(d) Tapping of trees shall be allowed in the manner and during the period as may be prescribed for different species by the Divisional Forest Officer, Dharwar.

(e) Stripping off bark of trees shall not be allowed unless otherwise specifically permitted by the Divisional Forest Officer, Dharwar.

(f) Stripping of leaves of fodder tree shall be permitted and in the manner prescribed by the Divisional Forest Officer, Dharwar.

(g) Lopping of trees of the species other than those mentioned under A (d) shall be permitted in the manner prescribed by the Divisional Forest Officer, Dharwar.

(h) Clearing of under growth shall not be allowed except under the privileges sanctioned by Government for the neighbouring Government Forests.

(i) Pollarding of economic species such as Apta, Temburni and other species useful as lac hosts shall be allowed by rotation during the period and in the manner prescribed by the Divisional Forest Officer, Dharwar.

(j) Cutting of trees shall be regulated according to girth limits prescribed by the Divisional Forest Officer, Dharwar, with the consideration to silvicultural requirements of the crop. Rules in this connection are enclosed herewith. Trees to be felled or retained whichever are less in number shall be marked according to the prescriptions laid down by the Divisional Forest Officer, Dharwar.

(k) Quarrying shall be done only in the places approved by the Divisional Forest Officer, Dharwar. Quarrying shall not be permitted if sacrifice of good tree growth is involved.

(l) Burning of lime and charcoal shall be done preferably on plat areas taking care to see that the fire does not spread and destroy the vegetation.

Now, therefore, in exercise of the powers conferred by sub-section (1) of section 35 of the Indian Forest Act, 1927 (XVI of 1927), as in force in the Bombay Area, the Government of Mysore hereby:

(A) PROHIBITS

(a) Breaking up or clearing of the land for cultivation;

(b) Setting of fire to the area for the purpose of clearing the ground for Shikar or for promoting better growth of grass. If any fire occurs by accident all possible measures to extinguish it shall be taken by the owner promptly.

(c) Buring of any tree in the land even if it is dead for the purpose of xxxxx hunting or collection of honey.

(d) Lopping of trees of the following species for the purpose of tahal:
Teak, Mango, Sissum, Mohn, Hirda, Khair, Bibbla i.e. Honni, Shivan Chandan, Apta and Temburni.

3.....

THE (B) SCHEDULE

(a) Marking of trees in flat areas and moderate slopes shall be done on silvicultural principles approved by the Divisional Forest Officer, Dharwar and in the steep and precipitous slopes on the principles of protection where only dead trees may be removed.

(b) Pasturing of cattle:

(i) Not more than 2 heads of horned cattle per acre shall be allowed to be grazed in the area.

(ii) Sheep shall be allowed to graze in specified area approved by the Divisional Forest Officer, Dharwar, but limited to the carrying capacity and goats at the rate of not more than 2 per hundred sheep as prescribed in Article 122(v) of the Bombay Forest Manual, Vol. III.

(c) Girdling of trees shall not be permitted unless the removal of tree is silviculturally desirable.

(d) Tapping of trees shall be allowed in the manner and during the period as may be prescribed for different species by the Divisional Forest Officer, Dharwar.

(e) Stripping off bark of trees shall not be allowed unless otherwise specifically permitted by the Divisional Forest Officer, Dharwar.

(f) Stripping of leaves of fodder tree shall be permitted by rotation and in the manner prescribed by the Divisional Forest Officer, Dharwar.

(g) Lopping of trees of the species other than those mentioned under A (d) shall be permitted in the manner prescribed by the Divisional Forest Officer, Dharwar.

(h) Clearing of under growth shall not be allowed except under the privileges sanctioned by Government for thenneighbouring Government Forests.

(i) Pollarding of economic species such as Apta, Temburni and other species useful as lac hosts shall be allowed by rotation during the period and in the manner prescribed by the Divisional Forest Officer, Dharwar.

(j) Cutting of trees shall be regulated according to girth limits prescribed by the Divisional Forest Officer, Dharwar with due consideration to silvicultural requirements of the crop. Rules in this connection are enclosed herewith. Trees to be felled or retained, whichever are less in number shall be marked according to the prescriptions laid down by the Divisional Forest Officer, Dharwar.

(k) Quarrying shall be done only in the places approved by the Divisional Forest Officer, Dharwar. Quarrying shall not be permitted if sacrifice of good tree growth is involved.

(l) Burning of lime and charcoal shall be done preferably on flat areas taking care to see that the fire does not spread and destroy the vegetation.

RULES FOR FELLING IN PRIVATE FORESTS.

1. All mature, dead and dying trees shall be removed irrespective of species and girth (Dying tree means the tree of which half the crown is dead).

2. At least 20 timber trees of the following important species between 18" and 36" inches in girth at breast height shall be reserved per acre well distributed in the area of exploitation.

   Teak, Sissum, Karimuttal, Nandi, Honni, Heddi, Kindal etc.,

   The trees to be reserved under this rule shall be sound ones. In case the trees of the species mentioned above of the minimum prescribed girth are not available, equal number of trees of the maximum available girth shall be retained well distributed in the area of exploitation.

3. Soft wood species Viz., Sawar, Ambada etc. below 36" girth at breast height shall be retained.

4. Fruit trees and trees yielding important economic forest products such as Ambad(Mango), Phanas (Jack), Kaju, Amla, Karanj, etc. shall not be cut. Over mature trees of these species may be felled after they are certified by the Range Forest Officer.

5. All sandalwood trees below 12" girth at breast height (except dead and dying trees) shall be retained.

6. No trees of any species below and upto 12" girth at breast height shall be allowed to be cut except those mentioned in rule 1 above. Trees of the species other than those mentioned in rule Nos.2,3,4 and 5 below 12" girth at breast height should be felled only if they are interfering with trees of the above mentioned timber and other species or likely to interfere with future coppice shoots of the timber species to be felled. Under no circumstances should large gaps be created in the canopy.

7. No area should be clearfelled on the tops of steep hills where heavy erosion is feared. Such area shall be delineated by giving tar bands at breast height to the boundary trees which shall be approved by the Range Forest Officer.

8. Trees to be reserved under rule 2,3 and 4 should be marked with tar bands.

9. All live and sound trees to be felled shall be cut flush with the ground and the stools should be cut within 3" of ground level.

10. Reserved trees when infested with climbers shall be freed.

11. All dragging paths shall be refilled.

12. Before felling is started the area shall be inspected by the Range Forest Officer. He will also inspect the area after the felling is completed and furnish a certificate of the satisfactory completion of the work to the Divisional Forest Officer, Dharwar.

13. Thinning and cleaning in coppice growth shall be carried out as under:-

    If the number of stem (or shoots) is more than 3 in case of stools of and over 24" in girth at ground level, and more than 2 in case of stools below 24" girth at ground level, the number of stems in excess of the above number shall be cut back. The most promising stems shall be retained and bad once shall be removed.

14. The periodicity of felling will be limitted to 20 years cycle and hence the area once worked will not be allowed to be worked till 20 years have elapsed from the year of previous working.

GOVERNMENT OF MYSORE.

No. AFD 70 FAF 61.

Mysore Government Secretariat,
Vidhana Soudha,
Dated, Bangalore, 1960

NOTIFICATION.

WHEREAS a notice has been issued under Sub-Section (3) of Section 35 of Indian Forest Act, 1927 to Shri G.R.Deshpande of Dyamapur * the owner of the forest specified in the schedule hereto annexed to show cause why a notification under sub-section (1) of section 35 of the Indian Forest Act 1927, should not be made prohibiting or regulating the acts specified in the draft notification attached to the said notice;

AND WHEREAS no objections have been taken by the said owner ~~the owner has stated that he has no objection~~ to the issue of the notification;

AND WHEREAS it appears to the Government of Mysore that it is necessary:-

(a) For the conservation of trees and forests;
(b) For the preservation and improvement of soil;
(c) For the improvement of grazing;
(d) For maintenance of water supply in springs, rivers and tanks;
(e) For the maintenance, increase and distribution of the supply of fodder, leaf manure, timber & fuel;
~~(f) For the protection against storms, winds, rolling stones, floods and drought;~~
(g) For the preservation of public health;

A. To prhibit in the forests specified in the Schedule appended hereto the following acts:-
(a) Breaking up or clearing of the land for cultivation;
(b) Setting of fire to the area for the purpose of clearing the ground for Shikar or for promoting better growth of grass. If any fire occurs by accident all possible measures to extinguish it shall be taken by the owner promptly;
(c) Burning of any tree in the land even if it is dead for the purpose of hunting or collection of honey;
(d) Lopping of trees of the following species for the purpose of tahal:-
Teak, Mango, Sissum, Moha, Hirda, Khair, Bidla i.e., Honni, Shivan, Chandan, Apta and Temburni.

B. To regulate in the forests specified in the Schedule appended hereto the following acts:-
(a) Marking of the trees in flat areas and moderate sloped shall be done on sylvicultural principles approved by the Divisional Forest Officer, Dharwar and in steep and precipitous slopes on the principle of protection, where only dead trees may be removed.
(b) The pasturing of cattle:-
(i) Not more than 2 heads of horned cattle per acre shall be allowed to be grazed in the area.

* (2) Shri K.B.Joshi (Guardian of Minor Owner Shri R.V.Deshpande.
(3) Shri S.G.Deshpande.
(4) Shri K.G.Deshpande.

(b) (ii) Sheep shall be allowed to graze in specified area approved by the Divisional Forest Officer, Dharwar, but limited to the carrying capacity and goats at the rate of not more than 2 per hundred sheep as prescribed in Article 122(v) of the Bombay Forest Manual, Volume III.

(c) Girdling of trees shall not be permitted unless the removal of a tree is sylviculturally desirable;

(d) Tapping of trees shall be allowed in the manner and during the period as may be prescribed for different specied by the Divisional Forest Officer, Dharwar;

(e) Stripping off bark of trees shall not be allowed unless otherwise specifically permitted by the Divisional Forest Officer, Dharwar.

(f) Stripping off leaves of fodder trees shall be permitted by rotation and in the manner prescribed by the Divisional Forest Officer, Dharwar.

(g) Lopping of trees of the species other than those mentioned under (a), (d) shall be permitted in the manner prescribed by the Divisional Forest Officer, Dharwar.

(h) Clearing of undergrowth shall not be allowed except under the privileges sanctioned by Government for the neighbouring Government Forests.

(i) Pollarding of economic species such as Apta, Temburni ~~and other species useful~~ as lac hosts shall be allowed by rotation during the period and in the manner prescribed ~~by the Divi~~sional Forest Officer, Dharwar.

(j) Cutting of trees shall be regulated according to girth limits prescribed by the Divisional Forest Officer with due consideration to sylvicultural requirements of the crop. Rules in this connection are ~~*given below.~~ Trees to be felled or retained, whichever are less in number shall be marked according to the prescriptions laid down by the Divisional Forest Officer, Dharwar.

*are enclosed herewith.

(k) Quarrying shall be done only in the places approved by the Divisional Forest Officer, Dharwar. Quarrying shall not be permitted if sacrifice of good trees growth is involved.

(l) Burning of lime and charcoal shall be done preferably on flat areas taking care to see that the fire does not spread and destroy the vegetation.

Now, therefore, in exercise of the powers conferred by sub-section (1) of Section 35 of the Indian Forest Act, 1927 (XVI of 1927), as in force in Bombay area, the Government of Mysore, hereby

1. Prohibits (A) above,
2. Regulates (B) above.

A. To prhibit in the forests specified in the Schedule appended hereto the following acts:-

(a) Breaking up clearing of the land for cultivation;
(b) Setting of fire to the area for the purpose of clearing the ground for Shikar or for promoting better growth of grass. If any fire occurs by accident all possible measures to extinguish it shall be taken by the owner promptly;
(c) Burning of any tree in the land even if it is dead for the purpose of hunting or collection of honey;
(d) Lopping of trees of the following species for the purpose of tahal:-

Teak, Mango, Sissum, Moha, Hirda, Khair, Bidla i.e., Honni, Shivan, Chandan, Apta and Temburni.

B. To regulate in the forests specified in the Schedule appended hereto the following acts:-

(a) Marking of the trees in flat areas and moderate sloped shall be done on sylvicultural principles approved by the Divisional Forest Officer, Dharwar and in steep and precipitous slopes on the principle of protection, where only dead trees may be removed.

(b) The pasturing of cattle:-
(i) Not more than 2 heads of horned cattle per acre shall be allowed to be grazed in the area.

* (2) Shri K.B.Joshi (Guardian of Minor Owner Shri N.V.Deshpande.
(3) Shri S.G.Deshpande.
(4) Shri K.G.Deshpande.

(b) (ii) Sheep shall be allowed to graze in specified area approved by the Divisional Forest Officer, Dharwar, but limited to the carrying capacity and goats at the rate of not more than 2 per hundred sheep as prescribed in Article 122(v) of the Bombay Forest Manual, Volume III.

(c) Girdling of trees shall not be permitted unless the removal of a tree is sylviculturally desirable;

(d) Tapping of trees shall be allowed in the manner and during the period as may be prescribed for different species by the Divisional Forest Officer, Dharwar;

(e) Stripping off bark of trees shall not be allowed unless otherwise specifically permitted by the Divisional Forest Officer, Dharwar.

(f) Stripping off leaves of fodder trees shall be permitted by rotation and in the manner prescribed by the Divisional Forest Officer, Dharwar.

(g) Lopping of trees of the species other than those mentioned under (a), (d) shall be permitted in the manner prescribed by the Divisional Forest Officer, Dharwar.

(h) Clearing of undergrowth shall not be allowed except under the privileges sanctioned by Government for the neighbouring Government Forests.

(i) Pollarding of economic species such as Apta, Temburni and other species useful as lac hosts shall be allowed by rotation ~~and in the manner prescribed by the Divisional Forest Officer, Dharwar.~~

*during the period

(j) Cutting of trees shall be regulated according to girth limits prescribed by the Divisional Forest Officer with due consideration to sylvicultural requirements of the crop. Rules in this connection are* ~~given below.~~ Trees to be felled or retained, whichever are less in number shall be marked according to the prescriptions laid down by the Divisional Forest Officer, Dharwar.

*are enclosed herewith.

(k) Quarrying shall be done only in the places approved by the Divisional Forest Officer, Dharwar. Quarrying shall not be permitted if sacrifice of good trees growth is involved.

(l) Burning of lime and charcoal shall be done preferably on flat areas taking care to see that the fire does not spread and destroy the vegetation.

Now, therefore, in exercise of the powers conferred by sub-section (1) of Section 35 of the Indian Forest Act, 1927 (XVI of 1927), as in force in Bombay area, the Government of Mysore, hereby

1. Prohibits (A) above,
2. Regulates (B) above.

SCHEDULE.

MGS-MRS 100 copies
2/1/60

RULES FOR FELLING IN PRIVATE FORESTS.

1. All mature, dead and dying trees shall be removed irrespective of species and girth (Dying tree means the tree of which half the crown is dead).

2. At least 20 timber trees of the following important species between 18" and 36" inches in girth at breast height shall be reserved per acre well distributed in the area of exploitation.

   Teak, Sissum, Karimuttal, Nandi, Honni, Heddi, Kindal etc.,

   The trees to be reserved under this rule shall be sound ones. In case the trees of the species mentioned above of the minimum prescribed girth are not available, equal number of trees of the maximum available girth shall be retained well distributed in the area of exploitation.

3. Soft wood species Viz., Sawar, Ambada etc. below 36" girth at breast height shall be retained.

4. Fruit trees and trees yielding important economic forest products such as Ambad(Mango), Phanas (Jack), Kaju, Amla, Karanj, etc. shall not be cut. Over mature trees of these species may be felled after they are certified by the Range Forest Officer.

5. All sandalwood trees below 12" girth at breast height (except dead and dying trees) shall be retained.

6. No trees of any species below and upto 12" girth at breast height shall be allowed to be cut except those mentioned in rule 1 above. Trees of the species other than those mentioned in rule Nos.2,3,4 and 5 below 12" girth at breast height should be felled only if they are interfering with trees of the above mentioned timber and other species or likely to interfere with future coppice shoots of the timber species to be felled. Under no circumstances should large gaps be created in the canopy.

7. No area should be clearfelled on the tops of steep hills where heavy erosion is feared. Such area shall be delineated by giving tar bands at breast height to the boundary trees which shall be approved by the Range Forest Officer.

8. Trees to be reserved under rule 2,3 and 4 should be marked with tar bands.

9. All live and sound trees to be felled shall be cut flush with the ground and the stools should be cut within 3" of ground level.

10. Reserved trees when infested with climbers shall be freed.

11. All dragging paths shall be refilled.

12. Before felling is started the area shall be inspected by the Range Forest Officer. He will also inspect the area after the felling is completed and furnish a certificate of the satisfactory completion of the work to the Divisional Forest Officer, Dharwar.

13. Thinning and cleaning in coppice growth shall be carried out as under:-

    If the number of stem (or shoots) is more than 3 in case of stools of and over 24" in girth at ground level, and more than 2 in case of stools below 24" girth at ground level, the number of stems in excess of the above number shall be cut back. The most promising stems shall be retained and bad once shall be removed.

14. The periodicity of felling will be limitted to 20 years cycle and hence the area once worked will not be allowed to be worked till 20 years have elapsed from the year of previous working.

MGS/MS.100 copies.
